Vantera

Legal Monitoring & Risk Management

Stay Informed. Keep Risks Visible.

VANTERA provides a focused environment for legal monitoring, risk management, legal knowledge, team collaboration, and reporting.

Fidelity
TELEMATICS PTE. LTD.

- **What Vantera Does**

VANTERA helps organizations follow relevant legal developments, organize legal information, keep identified risks visible, coordinate work, and prepare structured reports.

Core Capabilities

Monitoring
Track relevant legal developments and information from selected sources.

Workspaces & Collaboration
Support shared work, notes, information, and coordination across teams.

Risk Management & Alerting
Monitor identified risks and receive alerts when predefined issues require attention.

Reporting
Compile monitored information and activities into structured reports.

Legal Knowledge Hub
Organize and access legal references and information in a centralized environment.

- **Positioning**

A focused legal monitoring environment for organizations that need structured visibility, risk awareness, collaboration, and reporting.

- **Keep Developments Visible and Work Organized**

Legal and regulatory developments can change continuously. VANTERA gives teams a structured place to monitor relevant information, manage risks, collaborate, and report on what matters.

Fidelity
TELEMATICS PTE. LTD.

Key Benefits

- **Continuous Visibility** - Keep track of monitored legal developments and relevant information.
- **Risk Awareness** - Maintain visibility over identified risks and issues that need attention.
- **Centralized Knowledge** - Keep legal references organized and easier to access.
- **Team Coordination** - Share information and coordinate activities through dedicated **workspaces.**
- **Structured Reporting** - Turn monitoring activities and relevant information into clear reports.

- **A Focused Operating Flow**

VANTERA focuses on the operational side of legal monitoring: see what is changing, keep information organized, track risks, coordinate with the team, and report the results.

Working Principle

Monitor → Organize → Manage Risk → Collaborate → Report

- **A Clear View of Legal Developments**

VANTERA is built around a straightforward monitoring workflow. It helps teams keep relevant information visible and move it through organized risk and reporting processes.

Fidelity
TELEMATICS PTE. LTD.

The Monitoring Flow

- **Monitor** - Follow legal developments and information from selected sources.
- **Organize** - Classify and keep monitored information in a structured environment.
- **Identify Risk** - Record issues and risks that require attention.
- **Alert** - Notify users when monitored conditions or identified issues require review.
- **Collaborate** - Share information, notes, and activities through dedicated workspaces.
- **Report** - Compile relevant monitoring results into structured reports.

- **Relevant Information Source**

Laws & Regulations • Court Decisions • Government Policies • Institutional Documents • News & Online Media • Other Relevant Sources

Operational Tools

- **Monitoring Workspace** - A structured environment for ongoing monitoring activities.
- **Risk Tracking** - A dedicated way to record and follow relevant risks.
- **Shared Knowledge** - Organized references that teams can access and use together.
- **Reporting** - Structured outputs for review and organizational reporting.

Platform Principle

Focused monitoring. Visible risks. Organized reporting

Fidelity
TELEMATICS PTE. LTD.

Use Case

1. Legal & Regulatory Monitoring

Track relevant laws, regulations, court decisions, policies, and other selected information through a structured monitoring environment.

2. Risk Tracking & Alerting

Record identified risks and monitor issues that require attention, with alerts based on defined monitoring conditions.

3. Legal Reference Management

Organize legal references and relevant information in a centralized knowledge environment for easier access and review.

4. Team Monitoring Workspace

Create dedicated workspaces where teams can share monitored information, notes, and activities.

5. Monitoring-Based Reporting

Compile monitoring results and relevant information into structured reports for internal review and organizational reporting.

6. Ongoing Compliance Oversight

Maintain consistent visibility over developments that may require follow-up by legal, compliance, or governance teams.

- **Typical Users**

Legal & Compliance Teams • Government & Public Institutions • Corporate Legal Departments • Governance & Regulatory Functions

Fidelity
TELEMATICS PTE. LTD.

Capabilities

VANTERA brings together the core capabilities needed to monitor legal developments, manage risk, organize knowledge, collaborate, and report.

Operational Tools

- **Monitoring** - Maintain visibility over relevant legal developments and monitored information.
- **Risk Management & Alerting** - Track identified risks and surface alerts when monitored conditions require attention.
- **Legal Knowledge Hub** - Organize and access legal references and relevant information.
- **Workspaces & Collaboration** - Coordinate work, share notes, and manage information within dedicated workspaces.
- **Reporting** - Compile monitoring information and activities into clear, structured reports.

Designed For

- **Legal & Compliance Teams** - Keep monitored developments organized and visible.
- **Government & Public Institutions** - Track relevant legal and regulatory information in a structured environment.
- **Organizations with Ongoing Monitoring Needs** - Support repeatable monitoring, risk tracking, collaboration, and reporting.
